I was at 200% after reading that "no nuthin'" comment... and I thought of a few other things that we used to say in Brooklyn.

Also- in order to get resolution on this issue, we need to get Parks Dept. on board-- the luxury box is the one of a few things they seem to be focused on. that, of course, will take time that we don't have.

If it's an important point for the IRS, shouldn't we be insisting on this for the ruling? The Mets have said to Michael and me that they're likely willing to help us on this issue in some capacity (though we're still arguing over how much).
